## SUMMARY STATEMENT

I'm a 21-year-old upcoming frontend developer, driven by a genuine passion for technology. I'm currently seeking opportunities in UI/UX design, web development, and frontend development. With a educational background and hands-on experience, I'm ready to take on new challenges in the digital space.

UI/UX Design - Information Architecture - Web Design - Prototyping and App Development - Project Management - System Hierarchy Design - User Experience Research - Startup Experience

## EXPERIENCE

### Frontend Developer & Technical Responsible

December 2022 - January 2024

Soleklart, *Norway*

As a Frontend Developer and Technical Responsible at Soleklart, I was accountable for the technical aspects, crafting engaging ads in Figma for Facebook and constructing websites for diverse clients, utilizing Webflow. This experience not only allowed me to acquire hands-on expertise in technical implementation, but also immersed me in a dynamic and creative environment.

- Led technical aspects by creating ads in Figma for Facebook and developing websites for clients, primarily using Webflow.
- Acquired hands-on experience with technical implementation in a creative environment.

### Prototype Developer

October 2023 - January 2024

Assistas, *Moss*

As a Prototype Developer at Assistas, I played a pivotal role in the early stages of the idea phase, taking charge of creating an app prototype using React Native and Firebase. I designed and implemented robust authentication and database functionalities, ensuring a secure and efficient user experience. Establishing an intuitive and user-friendly design structure through an effective system hierarchy was a key aspect of my responsibilities. Additionally, I contributed to the project's visibility by developing a teaser website for the platform.

- Introduced early in the idea phase and responsible for creating an app prototype using React Native and Firebase.
- Designed and implemented authentication and database functionality for the prototype.
- Established an understandable and user-friendly design structure through an effective system hierarchy.
- Developed a teaser website for the platform.

## EDUCATION

UI/ UX Design, Noroff university

*Web-based*
