SKILLS

Front-End: JavaScript (React, Next.js), React Native, Expo, HTML, CSS

Back-End: Node.js, Firebase

Tools: Git, Postman, Vercel, Netlify

UI/UX: Figma

EXPERIENCE

Frontend Developer & Technical Responsible   **December 2022 - Ongoing**
Soleklart*, Norway*

As a Frontend Developer and Technical Lead at Soleklart, I am responsible for all technical aspects, including designing engaging ads in Figma for Facebook, developing websites in both Webflow and code, and programming tools and projects such as a solar map and a dashboard. This role has provided me with hands-on experience in technical implementation while immersing me in a dynamic and creative environment. As the sole developer, I have taken full responsibility for hosting, maintenance, and overall technical execution.

- Led technical development by creating ads in Figma for Facebook and building websites for clients using Webflow and code.
- Programmed and maintained key projects and tools, including a solar map and a dashboard.
- Took full responsibility as the sole developer, overseeing hosting, maintenance, and all technical operations.

Prototype Developer   **October 2023 - January 2024**
Assistas, Moss

As a Prototype Developer at Assistas, I played a pivotal role in the early stages of the idea phase, taking charge of creating an app prototype using React Native and Firebase. I designed and implemented robust authentication and database functionalities, ensuring a secure and efficient user experience. Establishing an intuitive and user-friendly design structure through an effective system hierarchy was a key aspect of my responsibilities. Additionally, I contributed to the project's visibility by developing a teaser website for the platform.

- Introduced early in the idea phase and responsible for creating an app prototype using React Native and Firebase.
- Designed and implemented authentication and database functionality for the prototype.
- Established an understandable and user-friendly design structure through an effective system hierarchy.
- Developed a teaser website for the platform.
